

ARYAN AGRAWAL

Full Stack Engineer

📞 +91 7297976010 ✉️ aryanag1700@gmail.com [in LinkedIn](#) [</> LeetCode](#)

Professional Summary

Full Stack Engineer with **2+ years of experience** developing scalable, responsive web and mobile applications using **ReactJS, Next.js, HTML5, CSS3, JavaScript, and Django**. Skilled in **RESTful API integration, CI/CD pipelines, Docker, cross-browser testing**, and performance optimization. Proven record of delivering measurable impact including **600% SEO improvement** and **60%+ reduction in user drop-offs**. Strong collaborator with experience in Agile teams, global stakeholder interaction, and product-based development.

Experience

Onsitego

Aug 2023 – Present

Software Developer Engineer

Bangalore, India

- Developed full-stack solutions using **ReactJS, Next.js, Django, and REST APIs**, ensuring scalability, performance, and responsive design.
- Built an in-house **Lead Management System (LMS)** to streamline lead capture, assignment, and data tracking.
- Designed and deployed a dynamic **Payment Gateway** backend with reusable modules and CI/CD integration via Docker-based pipelines.
- Implemented a **Visit Management** module for auditing, branding verification, and compliance tracking.
- Enhanced UI performance with **cross-browser compatibility, CSS animations**, and optimized asset management.
- Collaborated with product designers using **Figma and Adobe Creative Suite** to deliver pixel-perfect interfaces.

Onsitego

Mar 2022 – Jul 2023

Software Developer Engineer Intern

Bangalore, India

- Implemented **Over-the-Air (OTA)** updates using **Microsoft CodePush** and native **Xcode workflows** to automate React Native app deployment.
- Optimized SEO performance by 620% on mobile and 183% on desktop via **lazy loading, dynamic imports, and asset cleanup**.
- Integrated **CleverTap, Segment, UXCam, Clarity, and Branch** to analyze behavior and reduce abandonment rates from **90% to 30%**.
- Implemented features like **Address Management, Slot Selection, and Customer Merge** using RESTful APIs.
- Configured automated **CI/CD pipelines** for testing and deployment to improve release efficiency.

Core Contributions Across Both Roles

- Contributed to critical modules in insurance and repair services improving reliability and maintainability.
- Optimized database queries, indexes, and backend logic to reduce response time and server load.
- Refactored redundant code and implemented modular reusable components for scalability.
- Performed root-cause analysis and resolved production bugs ensuring consistent performance.

Technical Skills

Languages: JavaScript (ES6+), Java, HTML5, CSS3, SQL

Frontend: ReactJS, Next.js, SASS, LESS, i18next

Backend: Django, REST APIs, Node.js (Basics)

DevOps: CI/CD Pipelines, Docker, Git

Design Tools: Figma, Adobe Photoshop

Analytics Tools: CleverTap, Segment, UXCam, Clarity, Branch

Core Competencies: Responsive Web Design, Cross-browser Testing, Full Stack Development, Scalable Architecture, Debugging, SEO Optimization, Agile Development

Education

Lovely Professional University

Jul 2019 – Jul 2023

B.Tech. in Computer Science and Engineering (GPA: 8.37/10)

Punjab, India
