

ARYAN AGRAWAL

Software Developer

+91 7297976010 aryanag1700@gmail.com [LinkedIn](#) [LeetCode](#)

Professional Summary

Results-driven Full Stack Developer with over **2 years of experience** designing, developing, and deploying scalable applications using **Python (Django, Flask)** and **modern frontend frameworks (React, Angular, Next.js)**. Skilled in **microservices**, RESTful APIs, and cloud platforms (**AWS, Azure**). Proficient with **SQL (MySQL, PostgreSQL)** and **NoSQL (MongoDB)**. Strong foundation in **CI/CD pipelines**, **Agile methodologies**, and performance optimization with a continuous **enthusiasm to learn** emerging technologies like AI/ML and distributed systems.

Experience

Onsitego

Aug 2023 – Present

Software Developer

Bangalore, India

- Developed and maintained full-stack applications using **Django REST Framework, React, and Next.js**, ensuring scalable and secure architecture.
- Architected a modular **Lead Management System (LMS)** for automated lead handling, reducing manual tasks by 35%.
- Created a configurable **payment gateway microservice** in Python for secure transaction routing and better throughput.
- Implemented caching and async processing via **Redis, Elasticache, and Celery**, improving response times by 40%.
- Integrated analytics (**CleverTap, Segment, UXCam, Branch**) and optimized frontend performance for better retention.
- Collaborated in **Agile/Scrum** teams for sprint planning, code reviews, and release management. Deployed via **Docker** and CI/CD pipelines (GitHub Actions).

Onsitego

Mar 2022 – Jul 2023

Software Developer Intern

Bangalore, India

- Built and deployed **Over-the-Air (OTA)** update mechanisms for React Native apps using **Microsoft CodePush** and iOS (Xcode).
- Enhanced SEO and performance by applying **lazy loading**, dynamic imports, and image optimization, boosting mobile speed by 6x.
- Developed responsive UIs using **React, HTML5, CSS3, SCSS, Bootstrap, and Material UI**, ensuring accessibility and usability.
- Integrated APIs between **Flask/Django backends** and frontends, ensuring secure and seamless data flow.

Core Contributions Across Both Roles

- Enhanced backend microservices for insurance and repair workflows, improving scalability and reliability.
- Optimized indexing and queries across **MySQL, PostgreSQL, and MongoDB** for faster data retrieval.
- Implemented robust logging and monitoring for better debugging, system resiliency, and production uptime.

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, Java, HTML5, CSS3

Frameworks & Libraries: Django, Flask, React.js, Angular, Next.js, React Native, Bootstrap, Material UI

Databases: MySQL, PostgreSQL, MongoDB

Technologies: REST APIs, Microservices, Redis, Elasticache, Kafka (learning)

Practices: Agile/Scrum, System Design, Unit Testing, Debugging, Scalability, Security Compliance

Analytics Tools: CleverTap, Segment, UXCam, Clarity, Branch

Education

Lovely Professional University

Jul 2019 – Jul 2023

B.Tech. in Computer Science and Engineering (GPA: 8.37/10)

Punjab, India
